# Networking for a Cause – Event History & Impact

*Together, we create lasting impact. One connection and one child at a time.*

In 2024, Tanya Pinto (Founder & President of Baal Dan Charities USA) was looking for a way to bring people together to help raise funds for children impacted by conflict and climate change in Ethiopia.

Events are usually very expensive to host in a city like New York and Baal Dan is a small charity that runs on almost zero operating expenses. Tanya put out a call for help to her network...

...And a friend who had volunteered for Baal Dan in India more than 15 years ago stepped forward. Mr. Brad Collins, offered space for this event at the global headquarters of RSM in New York City at *no cost* to the charity.

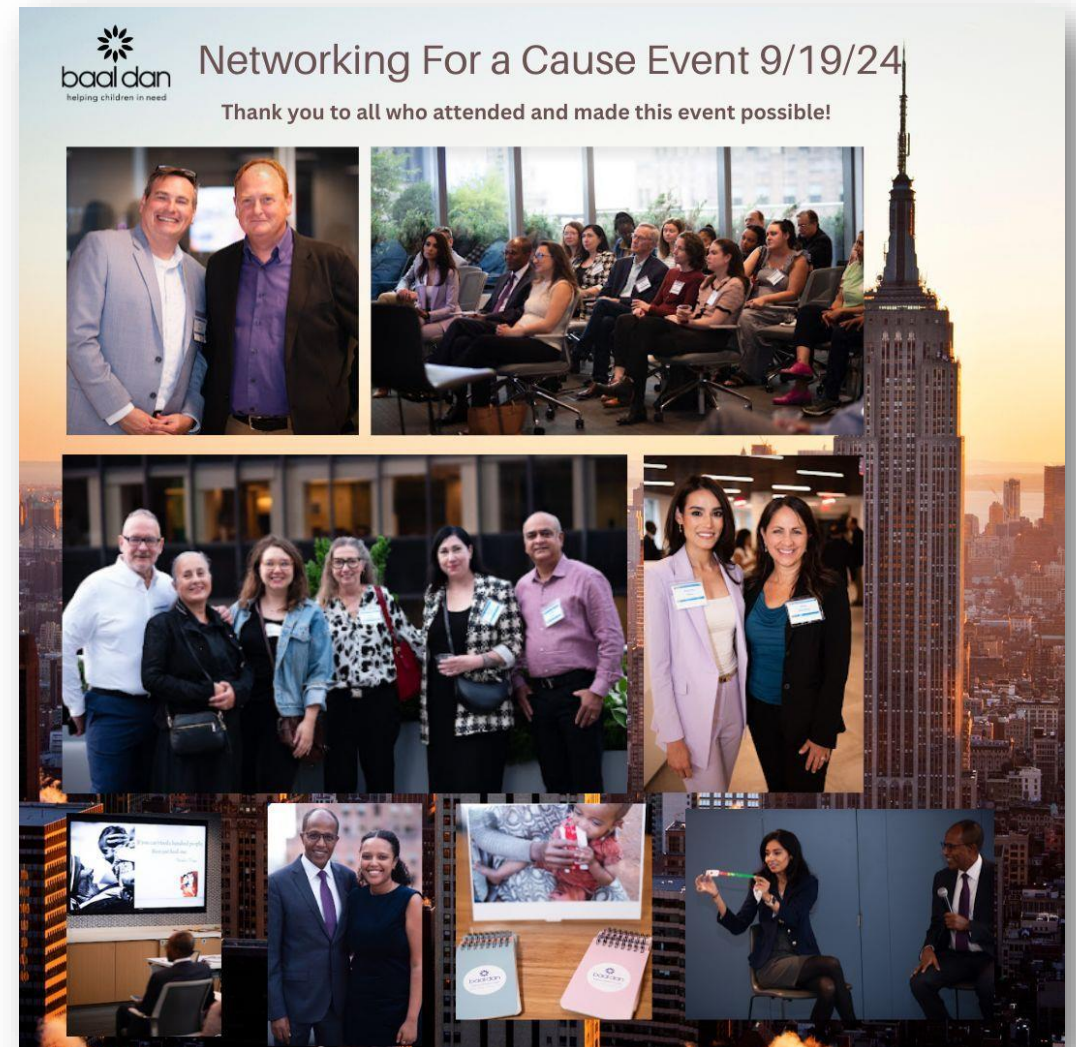

Since 2024, amazing people in market research and architecture have volunteered their time and talents to make this event possible so that 100% of all funds raised could go to help children in need.

***This is the power of community!***

This annual event has raised more than \$100,000 for children in need with 100% going to feed more than 1,600 children in Ethiopia with life-saving food.

***This impact happened through the power of “Networking for a Cause”.***

**Please join us in 2026 to make a difference for children in need.**
